Franklin Square. "DRINK PLENTY OF COFFEE, I there is sickness around." writes Dr. James Abernethy, in the British Medical Journal. "Coffee is a good preventative of typhoid fever and diptheria. This has been thoroughly demonstrated. Diphtheria and typhoid germs have been thrown into coffee, and the aromatic drink has invariably killed the germs within an hour. Hence amid costagious conditions, do not neglect among other precautions to drink two cups of coffee every morn-ing for breakfast."

WEDDINGS.

Johnson—Dawson.

At the prettily decorated home of the bride's parents, Mr. and Mrs. Johnson No. 14 Carter avenue, East Norwich, the wedding of Miss Mary Etta Dawson and Theodore Herbert Johnson of Worcester took place at 1 o'clock Wednesday afternoon, the ceremony being performed by Rev. M. S. Kaufman D. D., pastor of Trinity, Methodist Episcopal church. There were present about forty of the relatives and intimate friends of the bride and groom when the bridd party entered the parlor to the music of the Mendelssohn wedding march played by Miss Jennie Berriman of Danielson, at cousin of the bride. After the ceremony there was a reception from 2 to 3 o'clock, when many called to offer congratulations and good wishes. The bride's beautiful gown was of white's like. She carried chrysanthemums and wore illies of the valley in her halfr. Refreshments were served at the reception.

More Trolley Service.

Under the head of new business Timothy Murphy referred to the in-crease of business as shown by Franklin square and said he hoped it would increase. There is something more important, he said, and it is the extension of electric lines in Norwich extension of electric lines in Norwich so as to give better service. Since the first rails were laid in Norwich, years ago the extensions have amounted to but seven or eight miles. The company has abandoned the privileges to lay their tracks in streets where they had the privilege in Washington street, Market and Water streets.

Boswell avenue, he declared, had developed much its entire length, while Washington street hasn't any electric accommodations and Asylum street is another which is important. extension of electric lines in Norwich street is another which is important, and he suggested that a meeting of the citizens be called under the board of trade auspices to consider the matter. Connecticut as Fruit Growing State. President Cary introduced J. H. Hale of South Glastonbury to speak on Connecticut as a Fruit Growing State, and he was heard with delight. Mr. Hale intersperses his statements of facts and figures with bright remarks, which kept his audience crying for more and handing him applause every few minutes. Agriculture he declared is the foundation of everything, and it few minutes. Agriculture he declared is the foundation of everything, and it is because of it hat the boards of trade are beginning to get interested in the subject. People have been drifting to cities until they realize there is necessity of returning to the farms. He ream what James J. Hill has to say regarding What We Must Do to Be Fed, and declared that the products of the American farms for 1909 is \$8,700,000,000 of new wealth worked out. The product from the poultry yard is more than from the gold mines, in the past year. There is also several hundred millions received from exports in excess of imports. Connecticut stands second in all states in the poultry business and has more high grade seed farm products, more tobacco per acre to any state in the Union. It runs second in small fruit. It has more fine table grapes per acre than any other state and in peaches produces. fine table grapes per acre than any other state, and in peaches produces more than does Delaware in the aggre-gate and better in quality.

Our ancestors planted fruit trees for making something to drinks. The apple has not had a fair show, but what it can do under cuitivation and spraying is yet only a dream or a promise. Connecticut stands at the head in these lines hecause of the Agricultural college, of which G. S. Palmer was a valued trustee; the experimental station, the agricultural societies, dairymen's association, Pomological society, and Beckeepers' association. The grace has also been a big force.

result.

It is possible to make \$300 to \$400 an acre on grapes, \$300 to \$600 on small fruits, \$400 to \$800 on apples and \$500 to \$1,000 on peaches in Connecticut, and when rightly handled there is plenty of land in the state to bring about these results. He told of four trees in New Haven county producing \$215 this year

Hard Cider Neighborhoods In all sections of the state, he de clared, there were hard cider neighbor clared, there were hard cider neighborhoods, where Italians have bought of degenerate Americans and made on twelve farms he referred to which were not bringing in \$5,000 a year, the the sizeable sum of \$25,000 in 1908 and \$37,000 in 1909. This is the result of putting in brains in place of cider stupified descendants of Plymouth Rock. The ordinary farmers are not half awake to their opportunities.

half awake to their opportunities. Many people are returning to the farms, and many more will go there.

People are investing their money in land in the west for from \$300 to \$800 an acre, but that land is not as good as land which can be bought in Lebanon for \$200 an acre, but they have the land is not as good as land which can be bought in Lebanon for \$200 an acre, but they have the land is

as good crops.

There is, however, a lack of faith by
the common farmers and common
business men. Savings banks will not business men. Savings banks will not loan money on orchard land, but do for less secure holdings. He showed some fine specimens of apples which he has raised on a farm twelve miles from New Haven which he bought at a sheriff's sale. They were handsome apples and bring a good price.

There is a wide difference between the east and west. In the west they all pull together, while in the east they all pull apart. There are many intelligent fruit growers in the state and not one well cared for fruit farm and not one well cared for fruit farm is for sale. Out west all are for sale. Mr. Hale believes that within a few

years there will be a legitimate boom in the back country land. Farming for profit needs the business intelligence of the manufactory and proper care. Small fruits, peaches, plums, grapes, all are quick return fruit, but the apple is the sure, sound investment He answered a number of question and stated that the standard in Con-necticut is the Baldwin, while the Rhode Island greening is about as good. He also told of the big apple show in Boston of the New England states and of the many prizes Connec-ticut took.

He was given a rising vote of thanks at the close and rounds of applause and for a half hour after the meeting was besieged with questions. A box of Baldwin apples which he had raised was distributed among the π.embers of

Ocar Sirs—'Il was toid of your great remedy. Parisian Sage, that it would grow hair on bald heads, so I got a bottle and tried it and it is fine. I am a young man and only twenty-five, and was completely bald on the top of my head and new I have hair one lach long with the use of only one bottle. I only wish I could have shown you my photo before the hair started to grow and how it is now. I shall sertainly keep on using it until I have a good head of hair, which I have no doubt it will being. Oscar Armstrong, Engineer, Belleville, Horse-Shoe & Rolling Mill Co., Belleville, Ont. August 21, 1989.

To every reader of The Bulistin the American makers of Parisian Sage wish to emphatically state that they do not guarantee Parisian Sage to grow hair on baid heads, because in the great majority of cases the hair roots are absolutely dead and not even the wonderful virtue of Parisian Sage can resurrect them.

Mr. Armstrong started to use Parisian Sage in time, before the hair roots was entirely dead, and in such a case there is no good reason why Parisian Sage should not restore his hair.

The Lee & Osgood Co. guarantees Parisian Sage to remove every trace of dandruff, stop falling hair and liching scalp in two weeks or money back but they do not guarantee in to grow hair on baid heads.
